

2013 FLEET CURRICULUM CONFERENCE

UNCLAS

HMCM (SW/AW/FMF) Gida T. Mamaril, USN

UNCLAS

UNCLAS

- **FMF - forward deployed with Marines have rough time transitioning when met with 12-20 patients**
- **Evaluate thoroughly even “SB Commandos”, never presume malingering**
- **Even someone who trumps up severity on a daily basis can develop true pathology**
 - 2/3 or 9/10 pain can be equal level**
- **Accept to find frustration from time to time**

UNCLAS

UNCLAS

- Ask for guidance or advise
- Medical providers work a team approach
- Not burdening anyone
- FPs, Pas, FS, IDCs routinely ask guidance for unfamiliar cases
- Most junior clinicians (time in training total)
are least likely to ask questions;
- makes them look weak or unprepared

UNCLAS

UNCLAS

- **Balance**
- **Be helpful but set boundaries**
- **Talk to SMO if going under**

**Ex: SCPO demands atenolol be refilled @ 2000 or NOW!!
Even though he knew 2 weeks ago he needed refill**

UNCLAS

- Questions?
